

Company Fact Sheet

About D Square Energy Systems

Since 1990, D Square Energy Systems has focused *exclusively* on selling, repairing and maintaining generators for the commercial, industrial and residential markets. As the largest independent standby-power generator dealer in the Pacific Northwest, serving Washington, Oregon and Northern Idaho, we've learned what clients need and which generators perform best. That's why we exclusively sell a broad, scalable suite of reliable power products from Generac and service other major generator systems.

Industrial Generator Offerings

D Square is a single-source for fully-integrated design, engineering, construction and maintenance services for all generators. As the areas only Generac industrial dealer we are proud to sell a complete line of Generac Power systems including:

- Gaseous
- Diesel
- Modular Power Systems (MPS)
- Gemini® and Bi-Fuel™ generator

D Square also offers automatic and manual transfer switches, inverters, and UPS systems. Call for quotes on Plan Spec projects and for assistance with design engineering on negotiated projects.

Service, Parts & Inventory

- Fully-optimized 24/7 service: Includes a large, mobile staff of highly-skilled, factory-trained technicians organized through a fully-automated, real-time computer dispatch system to provide routine maintenance, repair, warranty work, field start-ups, and emergency after hour repairs. Annual preventative maintenance contracts are provided to more than 3,500 customers.
- Full line parts department: for Generac Power Systems and other major brands, including a large inventory of available parts and direct factory access for all non-inventory items. Next day air available.
- Inventory, in stock and available: An assortment of new and used standby generators, transfer switches and parts for all products represented.
- Certified DOT repair station: Trailer mounted generators and trailers serviced in the field or at our facility. Complete service or repair including brakes, wiring, hitch assembly plus general detailing.

Customers Always Come First

With a focus on customer care from its inception, D Square has built a reputation for excellent client service and takes the responsibility of providing expert installation and continuing care seriously. With over 3,500 satisfied customers serviced annually, clients rely on the trained and ready team at D Square for specification and design, sales, installation and knowledgeable service and support.

Experienced Executive Management

Don Dunavant, Owner
